## Biometric Time & Attendance

Cloud-based identity solutions for dependable people management

### Discover BiodeTIME

BiodeTIME harnesses the irrefutable accuracy of world-leading biometrics for dependable people management in commercial and retail environments.

Our advanced identity management solution enables your business to capture time and attendance information and manage access control rules accurately and efficiently.

The use of biometrics in business is still a relatively new concept. Organisations are only starting to understand the value of biometric time and attendance and access control solutions to **improve workplace security, increase productivity and maximise profitability.**

### How will BiodeTIME help your business?

Trust is good, but biometrics is better.

People are at the centre of every business, and effectively managing people depends on accurate and timely information. In fact, nothing could be more critical when it comes to essential operational activities, such as tracking time & attendance (T&A) and access control.

BiodeTIME is the ultimate cloud-based, biometric T&A solution. Our flexible and user-friendly platform places the biometrically identified individual at the heart of managing your business – enhancing your existing business workflows and seamlessly integrating with third-party applications, such as payroll and rostering.

The irrefutable nature of biometrically enabled T&A gives managers complete peace of mind.

Protecting people and assets.

# How does BiodeTIME work?

The following infographic demonstrates how BiodeTIME helps you solve costly problems by managing your people better; more reliably and accurately.

**Eliminate costly timesheet fraud and payroll data errors**

A staff member or visitor presents to perform a specific action.

For example:

**A visitor to the business wants to:**

- Register their on-site attendance
- Enter/exit a controlled area

**Desired Actions**

**A staff member wants to:**

- Clock on/off their shift
- Enter/exit a controlled area
- Attend a different location

**Without BiodeTIME**

Many critical business activities, such as time and attendance tracking (T&A), payroll and access control, are vulnerable to inaccurate information and fraudulent activity.

Timesheet fraud, payroll data errors, shrinkage, on-site safety and security are costly problems that negatively affect every business.

**Embed BiodeTIME into your workflows**

BiodeTIME dramatically improves security and accuracy over traditional T&A and access control systems by embedding the power of biometric identification into your workflows.

BiodeTIME enhances people management systems because individuals must be biometrically identified before recording T&A information or moving through controlled ingress/egress points.

BiodeTIME captures the irrefutable evidence of the time, location and originating person behind every activity, helping managers reduce costly problems like timesheet fraud, payroll data errors, shrinkage and the administrative cost of managing staff.

Our integrations with third-party payroll and roster solutions share valuable information, improving business efficiency.

**Business outcomes**

Business activities are managed more effectively and securely by placing the biometrically identified individual at the heart of the ecosystem, including:

Time & attendance

Security & access control

Muster report

Payroll and roster Integration

Management reporting

When it comes to biometric technology, **BiodeTIME is future-proof and proudly technology and brand-agnostic.** We offer unparalleled flexibility and peace of mind because we can integrate biometric devices from almost any vendor. Our clients are never locked into any single hardware provider or biometric modality.

Eliminate vulnerable swipe cards, passwords, and PINS

## Valuable Benefits

Without biometric people management, traditional business systems suffer many limitations. Advanced biometric identity management enhances your business processes in the following areas:

<b>Access control</b>	Biometric technology significantly improves safety and security controls by eliminating unauthorised staff or unlawful visitor access to secure, private or dangerous areas, including real-time updates of access permissions.
<b>Cards, passwords, PINS</b>	Eliminate fallible swipe cards, passwords and PINS that are easily stolen, lost, shared or hacked.
<b>Time &amp; attendance</b>	Eliminate time & attendance fraud by capturing irrefutable evidence of the time, location and originating person behind every timesheet entry.
<b>Payroll</b>	Ensure timesheets and payroll data are recorded accurately and staff are compensated correctly. Seamless third-party integration with your preferred payroll solution reduces errors and costly data re-entry.
<b>Inventory management</b>	Enable strict and robust access control to inventory areas to reduce shrinkage.
<b>Data management</b>	Share essential data across relevant third-party information systems, relieving administrative burden, reducing duplication of effort and eliminating costly data entry and consistency errors.
<b>Management reports</b>	Instantly generate accurate management reports for better operational insights and audit trails, including timesheets, attendance activity logs, and customisable reports.
<b>Muster reports</b>	Instantly generate accurate muster reports to improve on-site safety and security for staff and visitors.
<b>Scalability</b>	Cloud-based solution offers unlimited users and efficiently manages high activity volumes with ultra accuracy.

## Is BiodeTIME the right solution for your business?

BiodeTIME will improve and enhance business processes in every organisation that requires secure, accurate and reliable management of its people.

Does your organisation manage:

- A workforce of >10 people using timesheets or a Bundy clock?
- Staff working at multiple sites with complex ingress/egress authorisations?
- A mobile or remote workforce?
- Secure, private or hazardous areas?
- A high volume of staff/visitor/vehicle movement in/out of premises?

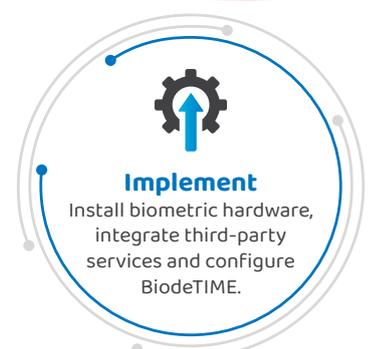

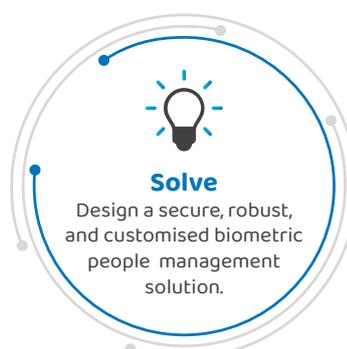

BiodeTIME's cloud-based identity management solution is best suited for the following environments:

- General corporate/commercial
- Retail and service station chains
- Childcare
- Hospitality
- Gyms
- Constructions
- Strata/accommodation
- Schools/universities
- Councils
- Airports

Increase security with world-leading biometrics
